Cancellation Policy

Cancellation is subject to one month written notice. Unless a written notice has been received, it is assumed that the student continues with class for the next term (except for grade 12 students at the end of the academic year, in which case it is assumed that they will graduate).

Other terms:

I take to heart the best interest of each student in my care and do everything in my power to assist my students to grow academically and intellectually and reach their full potential, but I need a few things from each of my students for us to get the best possible results:

- Homework must be completed and the quality thereof should be of the student's highest standard;
- Missing class should be avoided where possible (If unavoidable, 24 hour notice of absence should be given to avoid forfeiting the session);
- Honesty and integrity is expected of all students;
- In the event that I feel a student has difficulties which results from incorrect understanding of concepts from a previous grade, I may from time to time ask a student to join a class from a lower grade for a period of time in addition to his/her normal sessions. These additional sessions paired with a lower grade does not subtract from his/her normal sessions and are offered at no additional cost. It is offered to the benefit of the student and although serious consideration towards attending these will be appreciated, it is not compulsory.

If a student were to continuously, over a period of one term, fail to uphold his/her commitment, I reserve the right to terminate this agreement (after undertaking remediation efforts and involving all concerned parties) with one month written notice, so as to avoid further waste of the account payers' valuable funds and time.
